Re: **Important Update - GLOBAL BUILDING & CAMPUS BUSINESS
Increases in Q3 price file**

Dear Valued Customers,

We appreciate your ongoing partnership with CommScope and remain fully committed to strengthening and growing our shared business by delivering best-in-class quality, professional service, and innovative solutions to support your projects.

As the industry continues to navigate a dynamic environment influenced by macroeconomic and geopolitical factors impacting raw materials, energy, labor, and logistics, we continuously take steps to mitigate these challenges.

Through productivity enhancements, the strength of our global manufacturing footprint, and supply chain optimization, we have successfully absorbed a significant portion of these cost pressures while maintaining reliability and value for our customers.

The current level of market volatility and rapidly evolving conditions necessitate another review of the price file. As a result, CommScope will implement price increases for all Building and Campus products, as reflected in the Q3 price file, effective July 1st, 2026.

We truly value your business and appreciate your partnership. We recognize that such volatility can be challenging, and our teams remain available to support you. Should you have any questions or require further assistance, please contact your local CommScope representative. Thank you for your understanding and continued collaboration.

Sincerely,

Didier Claeys

Senior Director Product Line Management
Building and Campus Solutions
