Re: **Global Building & Campus Business Pricing Update Effective January 1, 2027**

Dear Valued Customers,

Thank you for your continued trust and partnership with CommScope. We greatly value the opportunity to support your business and remain committed to delivering industry-leading connectivity solutions, exceptional service, and the innovation needed to help you succeed in an evolving marketplace.

Over the past year, our teams have worked diligently to strengthen our global operations, enhance productivity, optimize our supply chain, and improve manufacturing efficiency. These efforts have enabled us to absorb a substantial portion of increasing costs while maintaining the high levels of quality, reliability, and support that our customers expect from CommScope.

As market conditions continue to evolve, including ongoing pressures related to raw materials, energy, labor, and logistics, we must make targeted adjustments to ensure we can continue investing in the products, services, and capabilities that create value for our customers.

Accordingly, updated pricing for our global Building & Campus portfolio will be reflected in the Q1 2027 price file and will become effective on **January 1, 2027**.

We remain fully committed to supporting your business and helping you achieve your objectives. Our teams are available to discuss the changes, answer any questions, and work with you to ensure a smooth transition. We appreciate your understanding and look forward to continuing our successful partnership in the years ahead.

Sincerely,

Didier Claeys

Senior Director Product Line Management
Building and Campus Solutions
